## **Report:**

### **1. The current status of the 'Tessiemeter'**

- The STESSIE meter application is ready for testing.
- The Maltese colleagues have asked parents and teachers to complete the questionnaire and to analyze the questions. They will be able to help us to identify which questions are too difficult or not clear.
- After the training event in Malta, the toolbox will be much more professionalized.
- The Stessie meter will be in English and Maltese. Others translations will happen in a later phase.
- From 27 until 30 November, the third IT-TESSIE meeting will take place in Poitiers in order to write specifications of the professional web application.

### **2. Last details of the second training event in Malta**

- Malta demonstrates the programme of the training event and checks the names of the participants.
- Malta will create a link for the multiplier event and send it to the partners in order to disseminate all information. Each partner will send the link to its own network and connections.
- The technicians need all relevant information for the multiplier event one day on beforehand. During the training event in Malta, all tasks will be divided among the partners.

### **3. List of participants and experts (INGESSIE) (see in attachment)**

- An expert of Romania will be invited to the training event in Basque Country.
- Other experts can be added to the list.

### **4. Fix the dates for the 4th TPM and the training event in Bulgaria and Serbia (see time schedule in attachment)**
