Mme	DAELMAN	Silke	Univ-Ghent	silkel.daelman@ugent.be
Mme	HERVADA	Antonia	Madrid teachers training center	mhervadabermudez@educa.madrid.org

The STESSIE project was initiated during the kick-off meeting in Brussels, on 1st and 2nd February 2023.

The STESSIE project will be conducted throughout Transnational Meetings, but also with several meetings of the STESSIE-IT group, which will be in charge of building the STESSIE online application. This group has an operational objective, hence its reduced size (10 people) and regular reporting to all stakeholders of the overall project.

Participants are expected to consider November, Monday 27th as a travel day. We shall begin our works in an informal way at the end of the afternoon. Tuesday and Wednesday will be full day of work.

Our meeting ends on November, Thursday 30th at noon.

In order to give flexibility to future mobility, IH2EF provides support for your accommodation and meals. Hotel + meals will be offered by the host organisation. All you have to do is finding a transport (train / plane) to Poitiers.

It is therefore possible to arrive in Poitiers on November, Sunday 26th evening; but it is also possible to take a train to arrive on Monday morning (several trains from Bordeaux or Paris) The departure is scheduled for Thursday, 30th (11:20 am), to give you time to catch a train to Paris or Bordeaux, and then possibly a plane.

The IH2EF is quite far from the station. Send us your arrival/departure times as soon as possible, so that we can arrange a transport (taxi or shuttle)

Wifi Internet connection : publicih2ef

Username : public

Password : Pythag0re. (don't forget the point at the end)

FORECAST PROGRAMME

Monday, November 27th		IH2EF
Afternoon	Progressive arrival of the participants Reminder of the technical progress of the project and first discussions
